

# Hydraulic Jack Leg Cylinders

950 STANDARD & 951 RUN-ON SERIES

*Hader-Seitz, Inc., an experienced leader in the design of custom engineered hydraulic cylinders, has developed a line of:*

## HEAVY DUTY HYDRAULIC JACK LEGS FOR OFF-HIGHWAY EQUIPMENT

- Lift and level portable crushing and recycling plants in minutes.
- Designed for easy travel (anti-drifting feature and unique foot attachment).
- Pin arrangement allows for safe position locking (easily store pins on unit).
- The swivel action foot design allows for lifting on uneven terrain.
- Mounting plates are height adjustable for your specific application.

6" Bore, 70,000# capacity leg

Matching mounting plates available upon request

### Jack Leg Cylinder Accessories Power Units And Valve Banks Available:

#### Gas Power Units Include:

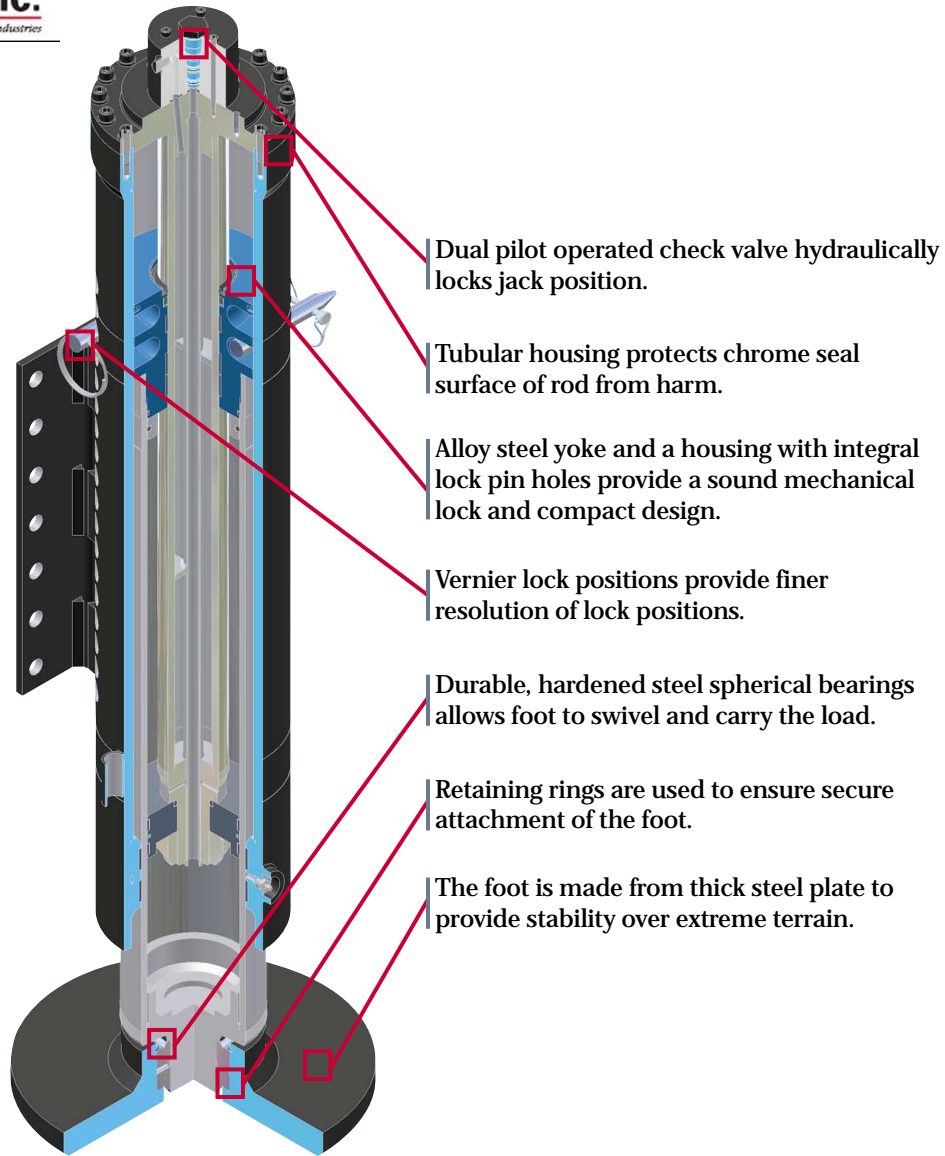

- 8 HP Honda, Electric Start Engine
- High-Efficiency Pump
- Return Filter
- 12 Gallon Reservoir
- 12 vDC Battery
- Fluid Level Indicator

#### 1 to 6 Manual Valve Banks Include:

- Main Relief Valve @ 2500 psi
- Handles
- Flow Controls (Base Side)

Dual pilot operated check valve hydraulically locks jack position.

Tubular housing protects chrome seal surface of rod from harm.

Alloy steel yoke and a housing with integral lock pin holes provide a sound mechanical lock and compact design.

Vernier lock positions provide finer resolution of lock positions.

Durable, hardened steel spherical bearings allows foot to swivel and carry the load.

Retaining rings are used to ensure secure attachment of the foot.

The foot is made from thick steel plate to provide stability over extreme terrain.

## STANDARD SERIES

Part Number	Capacity (lb)	Bore (in)	Rod (in)	Stroke (in)	Mounting Plate P/N
950-4020	31,400	4.00	2.00	20.50	25-145
950-4024	31,400	4.00	2.00	24.50	25-145
950-4036	31,400	4.00	2.00	36.00	25-154
950-4048	31,400	4.00	2.00	48.00	25-135
950-5018	49,090	5.00	2.75	18.00	25-137
950-5024	49,090	5.00	2.75	24.00	25-137
950-5036	49,090	5.00	2.75	36.00	25-137
